

# WHITE SPRUCE ARCHAEOLOGY INC.

White Spruce Archaeology Inc. (WSA) is Manitoba's oldest Archaeology Consulting Firm in Manitoba. We provide all levels of heritage and archaeological surveys and assessments and other heritage management services in Manitoba and Ontario. WSA makes sure our clients are in full compliance with all government regulations and guidelines.

## WE SPECIALIZE IN

- Water Management Projects
- Subdivisions
- Road Realignment
- Shore Stabilization Projects
- Any project that will impact land

## HERITAGE SERVICES

- Heritage Resource Impact Assessment (HRIA)
- Construction Monitoring & Post-Impact Assessments
- Developing Cultural and Heritage Protection Plans
- Artifact Analysis and Processing
- Historical and Archival Studies

## WHAT WE DO

- Apply to the Manitoba Heritage Resources Branch (HRB) for the necessary Heritage Permit to conduct an HRIA
- Work with HRB to identify best practices for the HRIA
- Request known archaeological site data from HRB
- Review available literature and maps about the area, examine current study area conditions to assist in the identification of heritage potential
- Conduct a review and summarize what is known about the archaeology, history, and prehistory of the study area
- Conduct archaeological field work with qualified archaeologists
- Document the area of pedestrian survey using the tracking function on a GPS
- Record the location of all excavated test pits using a GPS
- Document the types of soils found in test pits in notes, sketches and/or photographs
- Write a full report and make recommendations about the area with regards to its archaeological potential to satisfy the requirements established by HRB
